

How to use your ArmonAir RespiClick

55 mcg 113 mcg 232 mcg

What is my prescription?	Special Instructions
	<p>Take every day to control your symptoms.</p> <p>Rinse mouth thoroughly with water and spit after each use.</p>

What can I expect while I take this medication?

- ArmonAir is an inhaled corticosteroid that decreases airway swelling.
- ArmonAir will not provide immediate relief, but you can expect fewer episodes of coughing and wheezing.

How to use your ArmonAir RespiClick

1. Hold your inhaler upright and open the green cap all the way back until it clicks. Every time you open the cap, a dose is loaded. If you open and close the cover without inhaling the medicine, you will lose the dose.
2. Breathe out fully away from the inhaler.

3. Put the mouthpiece in your mouth and close your lips around it. Do not block the mouthpiece with your teeth or tongue. Do not block the vent above the mouthpiece with your lips or fingers.
4. Breathe in quickly and deeply through your mouth.
5. Remove the inhaler from your mouth.
6. Hold your breath for 5-10 seconds, and then breathe out.
7. Close the green cap after each dose.
8. Rinse mouth thoroughly with water after taking medication to decrease the risk of a mouth infection. Spit out the water. Do not swallow it.

How to clean your ArmonAir RespiClick:

You can clean the mouthpiece of your ArmonAir RespiClick inhaler with a dry cloth or tissue. **Do not** wash or put your inhaler in water.

Do not use ArmonAir Respiclick to treat sudden symptoms of your health condition. Always carry a rescue inhaler with you.
