

Who do I call if I have questions or worsening symptoms?

Call your UM doctor's office first, so that we can best advise next steps.

We may advise you to visit a local Urgent Care or any CVS MinuteClinic®.

MinuteClinics are walk-in medical clinics staffed with family nurse practitioners. MinuteClinics are open every day with no appointment necessary.

University of Michigan Health System has a partnership with CVS MinuteClinic.

If you receive care at a Minute Clinic, please let them know to send your visit information to your University of Michigan OBGYN surgeon.

Will my health insurance cover a MinuteClinic visit?

Most health insurance is accepted.

What are the MinuteClinic hours?

MinuteClinics are open seven days a week, including evenings and weekends. Hours vary by clinic.
