

University of Michigan Medical School
Department of Anesthesiology Presents

Perioperative Ultrasound and Echocardiography (TEE)

Saturday April 26th, 2008

This one-day course will focus on basic concepts of perioperative ultrasound and echocardiography that all graduating anesthesiology residents and practicing anesthesiologists should be familiar with. The case-based presentations will cover the application of ultrasound for transesophageal echocardiography, vascular access and bedside diagnosis.

TOPICS
Ultrasound Physics and Doppler Examination
Cardiac Anatomy and the Basic TEE Exam
Assessment of Left Ventricular Systolic and Diastolic Function
The Aortic Valve, Aorta and Great Vessels
The Mitral Valve
Devices, Catheters, Epicardial and Epi-aortic Scanning
Central Veins & Vascular Access
Perioperative Scenarios
Workshops: Surface Echo in the ICU, Vascular Access, Doppler Calculations, "Knobology"

Saturday April 26th, 2008

8:00 AM—5:00 PM

Towsley Center
Dow Auditorium
Continental Breakfast and
Registration: 7:30 AM

All Residents, CRNAs and faculty are encouraged to attend.

Lunch will be provided for registrants.

This course is free of charge.

Register by APRIL 16th with Barb Hammond: 734-936-9479.
