University of Michigan Resources

- Cancer Nutrition Services at the University of Michigan Comprehensive Cancer Center
  This site has information provided by UMCCC registered cancer dietitians. There is a section that focuses on Nutrition and Cancer Prevention. Also included is a collection of recipes to help people get the recommended daily amount of fruit and vegetables in their diet.

This document contains information and/or instructional materials developed by the University of Michigan Health System (UMHS) for the typical patient with your condition. It may include links to online content that was not created by UMHS and for which UMHS does not assume responsibility. It does not replace medical advice from your health care provider because your experience may differ from that of the typical patient. Talk to your health care provider if you have any questions about this document, your condition or your treatment plan.
