In-State/Out-of-State Tuition Supplement Policy

(June 1, 2009)

This policy is explicitly designed to provide a tuition supplement for a select few students each year based upon the following criteria:

- Does not qualify for in-state tuition despite having at least a 2 year history of providing medical care to Michigan patients as a resident or fellow,
- Has a strong commitment to a career in research,
- Has a meritorious application, and
- Demonstrates that paying for full out-of-state tuition would be a hardship.

The tuition supplement can be either the entirety or a portion of the difference between in-state and out-of-state tuition. Final decisions will be made by the Admissions Committee, which is currently composed of the Director and Co-Directors of the RWJF Clinical Scholars Program.

To inquire about eligibility and applying for the In-State/Out-of-State Tuition Supplement, please contact Molly Martin at 734.647.0571 or mollymu@umich.edu.
