# Register for the Inaugural Immuno-Hematology Symposium

**Keynote Speaker**
Dr. Steven M. Holland  
*Chief, Laboratory of Clinical Infectious Diseases and Immunopathogenesis Section at the NIAID*

All staff and students are invited to join us for this day-long event featuring clinical and bench scientist presentations on disorders of the immunologic and hematologic systems.

**Objective:** Participants will be able to better identify, diagnose and provide resources to patients with immunohematologic disorders.

***A maximum of 5.25 AMA Category 1 CME Credits will be awarded to participants***

**Date:** Friday February 28, 2014; 9:30am-4:30pm. **Lunch and symposium binder will be provided to registered participants.**

**Location:** Kahn Auditorium, Biomedical Science Research Building

| 1:00pm | Lymphoproliferation  
- Recurrent Fevers and Self-Resolving Cytopenias in an Infant with XIAP Deficiency  
- Dr. Miriam Bornhorst |
| 1:15pm | Regulation of HIF-1alpha by XIAP-Mediated Ubiquitination  
- Dr. Niall Kenneth |
| 1:30pm | Can We Translate Our Knowledge of the Cellular Roles of SAP and XIAP into New Treatment Modalities for XLP Disease?  
- Dr. Colin Duckett |
| Primary Immune Deficiency  
2:00pm | Patient Presentation: Impact of an Abnormal Newborn TREC Assay  
- Ashley Shaver, MD Candidate |
| 2:15pm | Functional Characterization of a Hypomorph Hypomorphic Artemis Mutation Associated with Immunodeficiency and Lymphoma  
- Dr. JoAnn Sekiguchi |
| 2:45pm | BREAK |
| 3:00pm | Glioma-Derived Galectin-1 is a Potent Suppressor of NK Immunosurveillance  
- Gregory Baker, PhD Candidate |
| 3:15pm | Introduction of Keynote Speaker |
| 3:30pm | Leukocytes, Leukemia and Lymphatics: This has GATA2 be Good  
- Dr. Steven Holland |
