

SO YOU HAVE SOME TIME IN ANN ARBOR

THINGS TO DO THE DAY BEFORE OR AFTER YOUR INTERVIEW

Food

We have a few recommendations, though it would be impossible to list all the good places in town:

- **Cafe Zola**, a sit-down, somewhat eclectic place, 112 West Washington Street, downtown. 734-769-2020.
- **Amer's**, a deli with a hundred sandwiches and a good place to sit with your coffee, 300 South Main, downtown, 734-668-1500.
- **Angelo's**, a post-call favorite for breakfast, 1100 Catherine Street, near the medical center, 663-7222.
- **Zingerman's**, a fabulous deli, but only if you want to spend a bit more than the average breakfast, 422 Detroit Street, in Kerrytown, part of downtown, 663-3354.
- **Sweetwater's**, with coffee and tea for all who seek a quiet spot, 123 West Washington Street, 769-2331.

Walks or Drives

- **Main Street** is the main shopping street downtown, lined with restaurants and stores.
- **State Street** parallels Main Street about six blocks east and marks the western edge of central campus. State Street is lined with stores and restaurants on one side, campus on the other. Be sure to walk **The Diag** through the heart of central campus.
- **Liberty Street** is the most active street joining Main and State.
- **The Arboretum** connects to the medical campus near Mott Children's hospital and has another outlet at Washington Street downtown. If you'd like to keep going, the Arb connects to Gallup Park and then to further trails along the Huron River.
- **Huron River Drive** northwest of town toward Dexter, offers a taste of more rural Michigan.
- **Briarwood Mall** at the south end of town, with good wandering on a cold day, though not markedly different from most malls.

Museums

- **The University Art Museum** is on Liberty and South University, free to all visitors.
- **The University Museums** combines all of the science museums (geology, astronomy, natural history, and more) in one location on North University. It's also free and includes a planetarium.

Hospital Tours

- **Hurley Hospital** is a one hour drive north on US-23. It's a bit complicated through Flint (though there are signs to Hurley Trauma Center), so ask us and we'll draw you a map. Again, you will be welcome at any time.

Farther Afield

- **Henry Ford Museum and Greenfield Village**, complete with a turn of the century operating village and all the old cars you can imagine. It's Dearborn's and Henry Ford's answer to Walt Disney.
- **Detroit**, an hour away on I-94, has casinos, restaurants of all types, the science museum, the art institute, the opera, and the Ambassador Bridge to Canada.
