ABBREVIATIONS LIST

ACCESSORIES, WHETHER SHOWN OR NOT, ARE TO REMAIN UNLESS NOTED OTHERWISE.

ACCESSORIES TO AN EXISTING FACILITY. WHILE AND ADDITION OF NEW EQUIPMENT, PIPING AND DUCTWORK THAT DEVIATES FROM THE EQUIPMENT AND DUCTWORK THAT DEVIATES FROM THE DESIGN CONTRACT DRAWINGS.

ATTERM. GRID BUBBLE X 24. WET BULB M-0 EVACUATION WAGD 123 ABC UNIT HEATER UH SF KEYNOTE IDENTIFICATION MECHANICAL LEGEND, ROOM CRITERIA RESPONSIBILITY OF THE MECHANICAL CONTRACTOR. ALL EQUIPMENT SHALL BE IN ACCORDANCE WITH NFPA 211, AND ORDINANCES. ALL WIRING SHALL BE IN CONDUIT.

All HVAC equipment shall be U-L listed.

Air cooled condenser.

All work and materials shall conform to the 2006 Michigan Building, mechanical and Plumbing codes and all other authorities having jurisdiction.

Any exhaust ducts through roof shall be 2'-0" minimum from edge of roof and 10'-0" minimum from supply air intakes.

Architectural Conditions.

Operation of the Mechanical Contractor, All work shall be performed in conformance with the 2006 Michigan Building, Mechanical and Plumbing codes and all other authorities having jurisdiction.

All drawings discrepancies to the engineer.

Contractor shall provide an AS-BUILT drawings all sizes, materials, elevation, and locations of all equipment piping or ductwork, before starting work.

Contractor shall record on as-built drawings all field, including points of connections to existing equipment pads, boilers and water heaters.

All piping for less than 110v shall be the responsibility of the mechanical contractor, all work shall be performed and applicable local codes and ordinances. All wiring shall be in conduit.

All required fire and smoke dampers shall be installed as tested or as shown in the booklet, state fire marshal, fire and smoke damper clarification, 1994 edition.

Installation of ventilation on heat producing equipment shall be in accordance with NFPA 211, NFPA 3, and national fuel code as applicable.

Any HVAC work shall be in compliance with NFPA 56a, and 499 as applicable and in strict accordance with manufacturers installation instruction.

If O-1 is not aware of any asbestos in the building, if any asbestos is encountered during demolition or construction, the contractor shall inform the architect.

All existing piping, ductwork, equipment and accessories, whether shown or not, are to remain unless noted otherwise.

Mechanical drawings are schematic in nature and are to convey design intent only. Included offsets, fittings and general installation requirements are the responsibility of the contractor.

All duct elbows greater than 45° require turning vanes.

Subject to restrictions.

THIS PROJECT CONSISTS OF RENOVATION, MODIFICATION EQUIPMENT AND DUCTWORK THAT DEVIATES FROM THE ARCHITECTURAL CONDITIONS.

All drawing discrepancies to the engineer.
