Michigan House Calls

MICHIGAN VISITING NURSES

UNIVERSITY OF MICHIGAN HEALTH SYSTEM

PROFESSIONAL CARE IN YOUR HOME

Sometimes it's just too difficult to leave your home to see a doctor. With Michigan House Calls, highly skilled and experienced nurse practitioners and physicians will see you in the comfort of your own home.

Michigan House Calls is designed to work in conjunction with the many services available through Michigan Visiting Nurses.

If you have a chronic condition or have difficulty with your health care maintenance or medication plan, you could benefit from Michigan House Calls. One call and our professionals will work with you, your family, your primary care physician, as well as your specialists or other health care professionals to decide on the plan of action that's best for you.

BENEFIT FROM MICHIGAN HOUSE CALLS

Ask yourself these questions to determine if you can use Michigan House Calls services:

- Are you too ill to go the doctor's office?
- Are you unable to see a primary care doctor in the office due to trouble walking, transportation issues, or scheduling problems?
- Are you under the care of many specialty doctors and have trouble understanding new medications and treatments?
- Do you frequently have to go to the emergency department or hospital for care?
- Would you be more comfortable with personalized health care in your home?

If you answered "yes" to any of these questions, you could benefit from Michigan House Calls.

WE'VE GOT YOU COVERED

If the need arises, Michigan House Calls will help you arrange for other services provided by Michigan Visiting Nurses, including psychiatric nursing, social work, physical therapy, home care nursing or care from home health aides.

All Michigan House Calls services are covered by Medicare.
