Signing With Your Baby Can Help Early Development

Five Reasons to Sign with Your Baby:

1. Babies can use signs before they can make words.
2. Babies who sign learn to speak more quickly.
3. Babies cry less.
4. Caregivers understand their baby better, so they feel less stressed.
5. Caregivers and babies can bond more quickly.

“I love you”

Talk to your doctor about the benefits of using baby signs!
