Dear Publisher:

The research reported in this manuscript has been funded through the National Institutes of Health and therefore its publication must comply with Public Law 110-161 of the Consolidated Appropriations Act of 2008, which can be found in Division G, Title II, Section 218 of PL 110-161.

Specifically, the law states:

"The Director of the National Institutes of Health shall require that all investigators funded by the NIH submit or have submitted for them to the National Library of Medicine's PubMed Central an electronic version of their final, peer-reviewed manuscripts upon acceptance for publication, to be made publicly available no later than 12 months after the official date of publication: Provided, That the NIH shall implement the public access policy in a manner consistent with copyright law."

In order to ensure compliance with the NIH policy, University of Michigan Medical School authors must provide a copy of the final manuscript, including all modifications resulting from the publishing and peer review process, to the NLM's PubMed Central (PMC) database ([http://publicaccess.nih.gov/](http://publicaccess.nih.gov/)) at the time the manuscript is accepted for publication, and also authorize NIH to make such copy of the manuscript available in digital form for public access in PMC no later than 12 months after publication.

Thank you for your acknowledgement of the NIH Public Access Policy and cooperation in meeting its requirements.

Sincerely,

Steven L. Kunkel, PhD  
Senior Associate Dean for Research  
Endowed Professor in Pathology Research  

Raymond J. Hutchinson, MD, MS  
Associate Dean for Regulatory Affairs  
Professor of Pediatrics and  
Communicable Diseases
