- Observation of performance by faculty.
- Observation of performance by house officers.
- Assessment of write-ups/reports.
- Written/oral tests.

Course Description:

Course is designed to allow students to assume gradually increasing responsibility in the care of inpatient and outpatient patients with Gastroenterological problems. Integration of basic internal medicine skills with subspecialty GI patients is emphasized. Basic lectures covering GI topics will give fundamental skills to the students. Assignment to the VA or University Hospital will be done on the first day of the clerkship.
