

PATHOLOGY - UMHS

E:Pathology, Clinical, UMHS

SUBJECT: PATH CATALOG NUMBER: 001CLNL.U

Instructors:	Faculty of the Department of Pathology
Responsible Agent:	Joseph C. Fantone, M.D.
Physician Coordinator:	Andrew Flint, M.D.
Site Coordinator:	Elvira M. Skuzinski, Pathology Education Office
Duration:	4 weeks
Periods Offered:	All
Min-Max Enrollment per Period:	6 Maximum
Distribution of Student's Time:	10% Conference/Lecture 20% Independent Study 70% Laboratory Work
On-call Responsibility:	None
Where to Report First Day of Clerkship:	9:00 a.m. in M4234 Med Sci I, 1301 Catherine Contact Elvira M. Skuzinski for more information: 734.936.1887 or elviras@umich. edu

Educational Goals and Objectives:

- A. To increase the student's understanding of the contemporary practice of Pathology and the role of Anatomic Pathology and Laboratory Medicine in the care of patients and clinical decision making.
- B. To enhance student's ability to integrate morphologic characteristics of human disease and clinical laboratory data in clinical decision making in the care of patients
- C. To enhance student's understanding of the role of the pathologist as an integral member of the healthcare team

How Students Will Be Evaluated:

Faculty and resident observation including:
Demonstrated medical knowledge and growth.
Ability to interpret and integrate morphologic findings and laboratory data in clinical decision making and patient care.
Professional behavior, including ability to function as a member of the health care team.
Formal and informal case and conference presentations.

Grades of Honors and High Pass require a formal paper or conference presentation on a topic of the student's choosing with approval of the faculty mentor.

Course Description:

This clerkship is intended to acquaint the student with the contemporary practice of Anatomic Pathology and Laboratory Medicine and its relation to the practice of other clinical specialties. Schedules can be varied to meet individual needs, but students will generally rotate through surgical pathology, the necropsy service, hematology, and blood bank, and will participate in a variety of laboratory and conference activities. Specific experiences in other laboratories and areas of Pathology practice can be arranged.
