### **How students will be evaluated**

Quality of care given (including clinical judgment)  
Participation and performance in conferences.  
Level of knowledge (including new knowledge).  
Level of skills.

### **Methods to Evaluate Student Performance**

Observation of performance by faculty.  
Observation of performance by house officers.

### **Course Description:**

This clerkship is designed to provide subinternship experience and a concentrated exposure to vascular surgery and medicine for senior medical students. Students share primary responsibility for all aspects of patient management and participate in both major and minor surgical procedures. This is an excellent experience for students who plan a career in surgery.
