PATIENT/FAMILY EDUCATION GUIDE

This University of Michigan Health System patient education guide for pediatric kidney transplant patients does not provide specific medical advice and does not endorse any medical or professional service obtained through information provided within this guide.

Use of this guide does not replace medical consultation with a qualified health or medical professional to meet the health and medical needs of you or others. While the content of this guide is frequently updated, medical information changes rapidly, and therefore, some information may be out of date, and/or contain inaccuracies or typographical errors.
