

University of Michigan
SLEEP 2008 Presentations

Monday June 9, 2008

8:20 am – 9:10 am, Development course, Roseanne Armitage, *Setting up and Managing a Sleep Lab.*

10:15 am – 12: 15 pm, Poster presentation, Joe Burns: Burns JW, Malhotra R, Chervin RD. *Comparison of Visual and Automated Analysis of Esophageal Pressures During Polysomnography*

10:15am -12:15 pm, poster presentation, David Cohen: Cohen D, Hershner S, O'Brien LM, Consens F. *Predictors of An Unsuccessful Titration in Split-night Polysomnograms.*

10:15 am – 12:15 pm, Poster presentation, Shalini Paruthi: Paruthi S, Felt BT, Hoban TF, Chervin RD, Ruzicka DL, O'Brien LM. *Sleep-Disordered Breathing: Does It Play A Role In Anxiety?*

10:15 am – 12:15 pm, Poster presentation, Ilana Hairston: Hairston I, Talbot L, Eidelman P, Gruber J, Harvey A. *Individuals with Primary Insomnia do no Dissipate their Sleep need during the Night.*

3:50 pm – 4:20 pm Session, Oral Presentation, Roseanne Armitage, *Quantitative EEG Analysis: Approaches and Lessons Learned from Studies of Depression and Other Psychiatric Disorders.*

Tuesday, June 10, 2008

8:30 am – 9:00 am Session, Oral Presentation, Roseanne Armitage, *Sleep EEG in Youth with a Parental History of Alcohol Abuse.*

10:15 am – 12:15 pm, Poster presentation, Louise O'Brien: O'Brien LM, Bullough AS, *Increased Mallampati Grade is Associated with Pregnancy – Induced Hypertension.*

10:15 am – 12:15 pm, Poster presentation, Wattanachai Chotinaiwattarakul: Chotinaiwattarakul W, Dayalu P, Chervin RD, Albin RL. *Risk of Sleep-Disordered Breathing in Parkinson's Disease and Non-Blood Relatives.*

10:15 am – 12:15 pm, Poster presentation, Elise Hodges: Hodges EK, Giordani B, Ruzicka D, Guire K, Shair S, Kade A, Dillon J, Hoban T, Felt B, Chervin RD. *Parent Ratings of Executive Functioning and Sleep-Disordered Breathing in Children Scheduled for Adenotonsillectomy.*

10:15am - 12:15 pm, Poster presentation, Ross Liebman: Liebman RF, Guire K, O'Brien LM, Consens FB, Chervin RD. *Epworth Sleepiness Scale Score Stability Over Time in Patients with Obstructive Sleep Apnea.*

10:15 am – 12:15 pm, Poster presentation, Nicole Phillips: Phillips N, Hoban T, O'Brien LM, *Sleep Architecture in Children with Downs Syndrome.*

10:15 am – 12:15 pm, Poster presentation, Neeraj Kaplish: Kaplish N, Chervin, R, Consens F, O'Brien LM, *Central Sleep Apnea in Epilepsy.*

10:15 am – 12:15 pm, Poster presentation, Leslie Swanson: Swanson L, Favorite T, Perman L, Arnedt JT. *An Open Pilot of a Cognitive-Behavioral Group Treatment for Comorbid Insomnia and Combat-Related Nightmares in Veterans with PTSD.*

10:15 am – 12:15 pm, Poster presentation, Roseanne Armitage: Armitage R, Flynn H, Marcus S, Vasquez D, Hoffmann R, Menke R, Bertram H, Fordyce J. *Sleep and Rest Activity Cycles in Infants with and without a Maternal Family History of Depression.*

10:15 am – 12:15 pm, Poster presentation, Melynda Casement: Casement M, Hoffmann R, Deldin P, Armitage R. *Periodicity of Beta Activity during Non-Rapid Eye Movement Sleep in Major Depressive Disorder.*

10:15 am – 12:15 pm, Poster presentation, Julia Wojnar: Wojnar J, Dopp R, Wojnar M, Rintelmann J, Emslie G, Brower K, Armitage R. *Sleep and Body Mass Index in Depressed Children and Health Controls.*

Wednesday, June 11, 2008

10:15 am – 12:15 pm, Poster presentation, Joe Burns: Wiebelhaus JL, Ruzicka D, Chervin RD. *Sleep Stage Dynamics Differ between Children with and without Obstructive Sleep Apnea.*

10:15 am – 12: 15 pm, Poster presentation, Louise O'Brien: O'Brien LM, Keeton AG, Helman JI, Buchman SR, Warschausky SA, Edwards SP, Chervin RD. *Sleep-Disordered Breathing and Behavior in Children with a Cleft palate Repair.*

10:15 am – 12:15 pm, Poster presentation, J. Todd Arnedt, Arnedt TJ, Conroy D, Armitage R, Brower K. *Randomized Controlled Trial of Cognitive-Behavior Therapy for Insomnia Associated with Alcohol Dependence: Preliminary Findings.*

10:15 am – 12:15 pm, Poster presentation, Francesca Baracchi: Baracchi F, Opp M. *Interleukin-1 β Receptor 1 and Tumor Necrosis Factor- α Receptor 1 Double Knockout Mice Show Reduced Sleep Alterations in Response to Lipopolysaccharide Administration at Light.*

4:15 pm – 4:45 pm, Session, Oral Presentation, J. Todd Arnedt. *Drowsy Driving in Shiftworking a Population – Medical Residents.*

Thursday, June 12, 2008

8:15 am – 8:30 am, Platform presentation, 031: Medical and Psychiatric Disorders of Children, Fauziya Hassan: Hassan F, Davis M, Chervin RD. *Insufficient Nights of Sleep and Childhood Obesity in a Nationally Representative Dataset.*

10:15 am – 12:15 pm, Oral presentation, Mihaela Teodorescu: Teodorescu M, Coffey MJ, Burns JW, Mancuso P, Bria WF, Consens FB, Ruzicka DL, Chervin RD. *Sleep Dynamics Airway Inflammation and Obstruction in Asthma Patients with Symptoms of Sleep-Disordered Breathing (SDB).*

Poster presentation, Muncey A, Salleus A, Baghdoyan HA, Koch LG, Britton SL, Lydic R. *Rats bred for low intrinsic aerobic running capacity exhibit decreased and more disrupted sleep compared to those bred for high intrinsic aerobic running capacity.*

Poster presentation, Muncey A, Salleus A, Baghdoyan HA, Koch LG, Britton SL, Lydic R. *Poincaré analyses provide novel insights into the temporal organization of sleep.*

Poster presentation, Gettys GC, Hambrecht VS, Baghdoyan HA, Lydic R. *Microdialysis delivery of the adenosine A1 receptor antagonist N6-sulphyphenyl adenosine (SPA) to the pontine reticular formation (PRF) of C57BL/6J (B6) mouse decreases PRF acetylcholine (ACh) release and delays recovery time from isoflurane anesthesia.*
