

PATIENT EDUCATION GUIDE

BRING THIS BOOK TO EVERY APPOINTMENT

Welcome to the University of Michigan Lung Transplant Program. We have written this book to help you and your caregivers throughout the lung transplant process. We know that the lung transplant evaluation and transplant process can be both emotionally and physically stressful. Our transplant team understands this and we are here to help you through this process. We hope you find this information helpful. If you have any questions, please contact us at the numbers listed in this book.

PATIENT EDUCATION GUIDE

This Michigan Medicine patient education guide for lung transplant patients does not provide specific medical advice and does not endorse any medical or professional service obtained through information provided within this guide.

Use of this guide does not replace medical consultation with a qualified health or medical professional to meet the health and medical needs of you or others. While the content of this guide is frequently updated, medical information changes rapidly and therefore, some information may be out of date, and/or contain inaccuracies or typographical errors.
