

## **Recent Publications**

### **Jason B. Weinberg, M.D.**

Weinberg, JB, Lutzke, ML, Kunkel, SL and Rochford, R. Elevated chemokine responses are maintained in lungs after clearance of viral infection. *Journal of Virology* 2002; 76(20): 10518-10523.

Weinberg, JB, Lutzke, ML, Alfinito, R and Rochford, R. Mouse strain differences in the chemokine response to acute lung infection with a murine gammaherpesvirus. *Viral Immunology* 2004; 17(1): 69-77.

Weinberg, JB, Stempfle, GS, Wilkinson JE, Younger JG and Spindler, KR. Acute respiratory infection with mouse adenovirus type 1. *Virology* 2005; 340:245-254.

Cadillac, JM, Sigler, RE, Weinberg, JB, Lutzke, ML and Rochford, R. Gammaherpesvirus-induced lung pathology is altered in the absence of macrophages. *Lung* 2005, 183:239-251.

Weinberg, JB, Jensen, DR, Gralinski, LE, Lake, AR, Stempfle, GS and Spindler, KR. Contributions of E1A to mouse adenovirus type 1 pathogenesis following intranasal inoculation. *Virology* 2007, 357(1):54-67.
