There is always a reason why people begin an event. Mine was simple: my mother at age 46 needed a lung transplant and I wanted as many people as possible to know the importance of becoming an organ donor to save lives. In 2001, my mom received her second chance at life with a life saving transplant. While our mission was always clear, in 2004 our family had the misfortune of dealing with transplantation again. We found out my aunt needed a heart transplant. Once gain a life saving transplant was performed and my aunt received her new heart at the end of 2005.

When this event began five years ago, my family never expected the overwhelming outcome year after year. We are proud to say that with much support and some wonderful helping hands, we have raised more than $100,000.00 for the U-M Transplant Center. On behalf of my family and myself we thank you for helping us with our mission for organ donation. We hope to see you at this year’s event.

—Shelly Morell, Event Coordinator

ABOUT THE TRANSPLANT CENTER
The U-M Transplant Center in Ann Arbor performs hundreds of heart, lung, liver and pancreas transplants each year. Your participation in this event will help save lives by raising funds that can be used to advance research, promote organ donation, and improve quality of life after transplantation.
