

PATIENT EDUCATION GUIDE

BRING THIS BOOK TO EVERY APPOINTMENT

This University of Michigan Health System patient education guide for kidney & pancreas transplant patients does not provide specific medical advice and does not endorse any medical or professional service obtained through information provided within this guide.

Use of this guide does not replace medical consultation with a qualified health or medical professional to meet the health and medical needs of you or others. While the content of this guide is frequently updated, medical information changes rapidly and therefore, some information may be out of date, and/or contain inaccuracies or typographical errors.

KIDNEY & PANCREAS TRANSPLANT PROGRAM

KIDNEY & PANCREAS TRANSPLANT PROGRAM

WHAT'S INSIDE

Your Kidney Transplant Team

- Transplant Nephrologist 1
- Transplant Surgeon 1
- Transplant Coordinator (Pre-Transplant) 2
- Transplant Physician Assistant/ Nurse Practitioner 2
- Transplant Social Worker 3
- Living Donor Advocate (LDA) 3
- Transplant Financial Coordinator 4
- Clinical Research Team 4
- Transplant Dietitian or Registered Dietitian 5
- Inpatient Nurse Educator 5
- Transplant Pharmacist 5
- Post-Transplant Nurse 6
- Primary Care Physician (PCP) or Family Physician 6

Before Transplant

Transplant at University Hospital

Kidneys

- Normal Kidneys 1
- Kidney Failure Leading to Transplantation 2
- The Kidney Transplant 2
- Kidneys for Transplantation – Where Do They Come From? 2
 - Deceased Donor Kidneys 2
 - Donation After Brain Death (DBD) 3
 - Donation After Cardiac Death (DCD) 3
 - Expanded Criteria Donors (ECD) 3
 - High-Risk Donors 3
 - Allocating Deceased Donor Kidneys 3

- Living Kidney Donor 4
 - Related or Unrelated 4
 - Desensitization 5
 - Paired Donation 6

Pancreas

- Normal Pancreas Function 7
- Pancreas Failure Leading to Transplantation 7
- Pancreas Transplant 8
 - Simultaneous Pancreas Kidney Transplant (SPK) 8
 - Pancreas After Kidney Transplant (PAK) 8
 - Pancreas Transplant Alone (PTA) 8
- Some Patients Cannot be Listed for a Pancreas Transplant 8
- Pancreas for Transplantation – Where Do They Come From? 9
 - Deceased Donor Pancreas 9

The Immune System

- Understanding the Immune System 9
 - What is an Antigen? 9
 - What are Antibodies? 10
 - How Antibodies Develop 10
- Understanding the Matching Process 11
 - What is Matching? 11
 - Blood Types 11
 - What is Tissue Typing? 11
 - What is Crossmatching? 12
 - What is Antibody Screening? 12

Pre-Transplant Evaluation

- Referral Process for a Transplant Evaluation 12
- Pre-Transplant Evaluation Appointment 12
- Selection Criteria 13
- Tests and Procedures During Evaluation 13
 - Initial Testing 13
 - Additional Testing 14
 - Testing Complete – Results Reported 14
- Health and Social Considerations 14
 - Smoking Policy 14
 - Alcohol and Drug Policy 15
 - Mental Health 15
 - Social Support Plan 15
 - Active Participation in Your Health Care 16
- Evaluation Meeting 17

Getting Listed

- To Remain Active on Waiting List 17
- Being Placed on “Hold” 18

Maintaining Health While Waiting for Your Transplant

- Maintain a Healthy Lifestyle18
 - Staying Physically Healthy18
 - Staying Emotionally Healthy19
- Where and Who to Call When You're Sick - Prior to Transplant20

The Call Comes When an Organ is Available for You

- Transportation to the Hospital21
- What to Bring When You Come to the Hospital for Transplant22
- When You Arrive at the Hospital22

Patient Education Class

- Patient Education Class1
- Purpose of Class1
- Basic Organ Function2
- Pancreas Transplants2
- Why a Kidney Transplant?2
- Where do Kidneys Come From?3
- Why it is Important to Have a Living Donor4
- Living Donor4
- Living Donor (2)5
- Desensitization5
- Paired Kidney Donation6
- Altruistic Donor Begins Chain6
- Expanding the Deceased Donor Pool7
- Pre-Transplant Evaluation8
- Transplant Evaluation Team9
- After Today's Evaluation9
- After Committee Meeting10
- Decision: Continue Evaluation10
- Decision: Do Not List11
- Decision: To List11
- Where Are You Listed?12
- UNOS Requirements to List12
- Multiple Listing13
- Multiple Listing Considerations13
- To Stay "Active" on the List14
- Listed - Status is "On Hold"15
- While You Wait15
- Be Prepared for "The Call"16
- When the Call Comes16
- Arriving at the Hospital17
- Transplant Research17
- Clinical Trials - To Join or Not?18
- The Transplant Operation18
- Ureteral Stents19
- During Your Hospital Stay19
- Immune System20

- Medications After Transplant 20
- Learning About Medications. 21
- Side Effects of Medications 21
- Some Possible Side Effects 21
- Mycophenolate Mofetil (Cellcept). 22
- Mycophenolate Sodium (Myfortic) 22
- Pain Management 22
- Steroid-Free Protocol. 23
- Hospital Stay 23
- Discharge 24
- Outpatient Follow Up 24
- Rules We Must Follow. 25
- You are Listed When? 25
- Who to Contact? 26
- Questions? 25

Living Donor Kidney Transplant

- Transplants at University of Michigan Health System 1
