

LIVER TRANSPLANT PROGRAM

WHAT'S INSIDE

Your Transplant Team

The transplant team of surgeons, doctors, nurses and others who handle your case is very important to the success of your transplant. This section provides descriptions of each of these team members.

Your Liver Transplant Team	1
----------------------------------	---

Pre-Liver Transplant

This section holds lots of information about liver transplants in general, as well as how patients are evaluated, listed and selected for transplant.

Liver Transplants at University of Michigan Hospital	1
Listing	10
Maintaining Health While Waiting for a Liver	17
Complications Which May Occur While Waiting for a Liver Transplant	24
Where and Who to Call Before Transplant	26
Getting a Liver	28
When The Call Comes	29
Patient and Visitor Accommodations Program	30
Advance Directives	32

Financial Information

This section provides information on insurance, financial planning, assistance programs and importance of continuous coverage.

Diet and Nutrition

This section includes diet and nutrition information before and after transplant.

Nutrition Goals Before Transplant	1
Sodium-Restricted Diet	1
Healthy Food Choices	3
Nutrition Goals After Transplant	6
Food Safety	7

Clinical Studies

This section provides information on research studies also known as clinical trials.

Post-Transplant

The Post-Transplant section discusses the seriousness of the surgical procedure and the extensive follow-up care required.

Arrival for Transplant	3
The Inpatient Stay at the Hospital	4
Going Home	7
Discharge Education for Transplant Patients	7
Transition of Care Following Discharge	9
Follow-Up Care for Patients Who Received a Liver from a CDC Increased-Risk Donor	10
Follow-Up Care for Patients With a Liver from a Donor with Prior Hepatitis B Infection	10
Your First Clinic Visit Following Discharge	10
Develop Plan for Outpatient Blood Work	13
Transition of Care to Post-Transplant Hepatology	14
Follow-Up Care for Patients with Cholangiocarcinoma	15
Transplant Ambulatory Care Unit (TACU)	15
Infusion Clinics	16
Policy on Wearing Masks	16
Special Care	17
You Should Monitor Your Own Health	17
You Need to Reconnect with Your Primary Care Physician	18
Resuming Life After Transplantation	19
Complications After Transplant	22
Immunizations and Vaccines	32

Post-Transplant Medicines

This section includes information on transplant medication as well as other prescription drugs and over-the-counter medications. Information on pregnancy after transplant is included as well.

What You Need to Know About Your Medications	1
When to Call the Transplant Office About Your Medications	2
Anti-rejection Medications	3
Anti-infective Medications	10
Miscellaneous Medications	12
Over-the-counter Medications	14
Pregnancy After Transplant.	15
Medication Refills	17

Resources

The Resources section of this guide includes a wealth of information that you will need throughout the transplant process.

Online Resources	1
Patient Portal (MyUofMHealth.org)	1
Glossary of Terms	2
Raising Funds to Cover Medical Expenses	22
Transplant-Related Websites	23
Durable Power of Attorney for Health Care.	25
MLabs Blood Drawing Stations	31
Transplant Specialty Pharmacy	33
Standing Order	34
Transplant Mailings	35
Medical Emergency ID Tag	36
Connecting With Your Donor Family	37
The Safe Use of Acetaminophen.	39
Immunizations	42
Tobacco Policy.	43

Living Donor Liver

This section may not be for everyone. This section is for patients who may receive a liver – or portion of a liver – from a living friend or family member.

The Liver Transplant Patient Education Guide was originally published in 2006 and was funded in part by a grant from the FRIENDS of the University of Michigan Hospitals. The contents were updated in 2014 by members of the Adult Liver Transplant Program.

Gina Bergmooser, MSN, RN

Stacy Brand, MBA

Robert Fontana, MD
