

Physician Assistant Recruiting Resource Guide

July 23, 2008

Reviewed and approved by:
Marc Moote, Chief Physician Assistant, UMHS
Mindy Warden, Health Careers Recruitment Coordinator

Overview

The University of Michigan Health System (UMHS) is recognized and respected as one of the nation's top hospitals according to *U.S. News and World Report*. UMHS has a reputation for attracting superior talent and providing a high level of patient care. While able to maintain this reputation to date, the shortage for recruiting midlevel providers continues to tighten and superior talent is becoming even scarcer. Thus, UMHS needs to be proactive in its ability to recruit top talent.

This PA Recruitment Resource Guide was developed to assist in the recruitment of Physician Assistants. It provides an occupational outlook of the PA practice and a complete listing of recruitment strategies.

Fast Facts: Occupational Outlook for PAs	3
Inbound Migration Patterns	3
Alternative Recruiting Strategies: Directrecruit, Telerecruit, Direct Sourcing, Event Sponsorship, Net Source	4-5
Trade Journals	6-7
Web Sites, E-Newsletters/E-Blasts	7-9
Alternative Web Strategies: Pay-Per-Click (Google, Adworks and Yahoo)	9-10
College Recruiting: Physician Assistant Programs	10-23
Professional Associations: National, State and Subspecialty	23-30

Recruitment Contacts:

Your primary contact within UMHS is Mindy Warden, Health Careers Recruitment Coordinator. Mindy can be reached via email: mkwarden@med.umich.edu or Via phone: 734-65-3311.

Additional resources and advice can be provided by JWT Inside, the UMHS preferred vendor for recruitment and retention services. The Account Team includes:

Nancy Caputo, Sr. Client Director/ Email: nancy.caputo@jwt.com
Responsible for the overall direction and account planning

Andrea Kalnasy, Associate Account Executive/Email: andrea.kalnasy@jwt.com
Responsible for overall projects and advertising strategies

Nicole Dickhens, Account Coordinator/ Email: nicole.dickhens@jwt.com *Responsible for overall ad placement and web postings*

Fast Facts: Occupational Outlook for Physician Assistants

(Information provided by AAPA)

AAPA estimates there were 75,260 people eligible to practice as PAs and 63,609 people in clinical practice as PAs at the beginning of 2007.

Number of Physician Assistants who are members of AAPA: 39,529 (as of September 10, 2007). The number varies throughout the year as a result of renewals, reinstatements, and as new members join. Approximately 50% of PAs are not members of the AAPA, important when considering advertising via the professional association.

Number of students currently enrolled: There are approximately 12,000 students enrolled in PA programs. The number of new graduates in 2006: approximately 4,600.

Average income: Results of the 2007 AAPA Physician Assistant Census Survey indicate that the mean total income from primary employer for PAs who are not self-employed and who work at least 32 hours per week for their primary employer is \$86,214 with a median of \$82,223 (all specialties combined). For the state of Michigan the comparable mean is \$86,903 and the median is \$83,312 (all specialties combined). The comparable mean for PAs who have been in clinical practice for less than one year is \$73,013 with a median of \$71,825. Please be aware that these results are not specialty specific, but rather represent all specialties combined.

Fringe benefits: One benefit most employers provide for PAs is funding for continuing medical education (CME). An analysis of the 2006 AAPA Physician Assistant Census survey indicates that 91% of PAs receive CME funding from their primary employer. The national mean of CME funding provided by employers is \$1,654; the median is \$1,500.

Outlook on the profession: Eighty-five percent of all individuals eligible to practice as PAs were in clinical practice at the beginning of 2007. The United States Bureau of Labor Statistics (BLS) projects that the number of PA jobs will increase by 27 percent between 2006 and 2016. The BLS predicts the total number of jobs in the country will grow by 10 percent over this 10-year period. The PA profession is ranked the fourth fastest growing profession in the country.

States with the largest percentage of Physician Assistants:

New York: 8%	California: 7%	Texas: 6%	Pennsylvania: 6%
Florida: 6%	North Carolina: 5%	Michigan: 5%	

Inbound Migration Patterns

Critical to targeting PAs who are interested in working at UMHS, you need to know the migration habits of the general population (where individuals are coming from as they take their new residence in Washtenaw County). The information retrieved from the 2006 IRS County to County Migration Flow Data shows that the majority of the population migrating to Washtenaw County came from the Michigan counties of Wayne, Oakland and Livingston. Outside of Michigan, individuals commonly migrated from the state of California, followed by Illinois, Florida, New York and Ohio. When developing recruitment plans these states should be targeted.

Alternative Recruiting Strategies

DirectRecruit & Telerecruit through JWT's Channel Partner: Katon

DirectRecruit

DirectRecruit is a direct mail campaign for targeted PAs. The campaign delivers a personalized recruitment message to every candidate in the targeted geographic area. Your message is delivered to a captive audience without the distraction of competing messages from other employers. The process begins with a discussion on specific recruitment need, messaging, identification of targeted area to recruit. JWT Inside provides estimates for creation of direct mailer and purchase of list, mail fulfillment and postage. Once an estimate is approved, the list is purchased and undergoes cleansing to assure accuracy and deliverability. At the same time, JWT Inside creates a personalized direct mailer.

Cost: Estimate is provided in advance based on targeted regions/zip codes.

Telerecruit

Telerecruit is a new tool utilized to recruit passive health care candidates. It is an interactive telephone recruitment campaign that proactively pushes the recruitment message out to its targeted candidate pool. The experienced recruiters act on UMHS's behalf to elicit candidates via a targeted call.

Cost: Estimate is provided in advance. Estimate is based on a per-candidate charge of \$2.50 which is inclusive of everything necessary for a successful campaign including sourcing strategy, call guide, list rental, call execution and campaign summary. There is a minimum of 1,000 calls to start a project.

Direct Sourcing

Direct Sourcing service uses search research techniques to identify qualified candidates based on your requirements. Candidates who match your job specifications are individually targeted and contacted on your behalf. The profiles of interested candidates are then forwarded to you for further consideration. For difficult-to-recruit or sensitive recruitment assignments, direct sourcing can successfully deliver candidates at a fraction of executive search prices.

What we do in Direct Sourcing:

- We work with you to establish job requirements and ideal candidate qualifications. We discuss the companies and individuals you want to target, and then develop a job profile to guide the search process. Experienced executive search researchers identify candidates who match your job profile.
- The position and your company are discussed in detail with each candidate. The profiles of at least three candidates who best fit your job profile are then forwarded to you for further consideration.
- A detailed summary of all the candidates who were contacted will be sent to you. Depending upon your staffing needs, additional services are available: name generation relative to specifications; organization chart

construction; face-to-face interviews; competitive intelligence; appointment scheduling; and background and reference checking.

What Direct Sourcing does for you:

- Quickly identifies candidates who closely match your desired criteria at a fraction of executive search prices.
- Puts you in contact with those who are not actively seeking a job change.
- Reaches those who do not respond to traditional advertising.
- Provides you with information about competitive companies.
- Benchmarks internal candidates against the best external candidates.
- Provides a third party to facilitate sensitive recruitment assignments.

Cost: \$135/per hour; estimate is provided in advance.

Recruitment Events

Recruitment events are a successful way to recruit PAs. The event can be promoted through a variety of means including online, college e-mails and postering, direct mail, UMHS web site, print, and through your own employees. Events that include an educational offering, an opportunity to meet the staff and tour of the department have proven to net the best results.

Net Source

Our team of Internet recruiting experts will search both free and paid resume databases and provide up to 25 resumes matching your job specifications.

Features

- Internet recruiting experts will work with you directly to develop in-depth and detailed job descriptions.
- Recruiters will search free and fee-required Internet resume databases and sites, including local Internet Service Providers (ISPs); newsgroups; associations; source companies; colleges/universities; events/conferences; personal homepages; at least three search engines; and any other online locations that may prove helpful in the hunt for resumes. Each resume is meticulously read and screened according to your job description and requirements. Up to 25 matching resumes will be presented.

Cost: \$1500; results guaranteed or there is no charge.

Physician Assistant Trade Journals

(General Trade Journals listed below, please check PA subspecialty section for additional listings under specific subspecialty)

Clinical Advisor

The *Clinical Advisor* focuses on improving the skills of PAs (and NPs) by presenting case-based articles about conditions seen in primary care.

Circulation: 119,900

Frequency: Monthly

Closing: Mailed on the 15th of each month. Deadline is 3 Friday's before issue date.

Bonus distribution issues:

April: American Academy of Physician Assistants Conference

May: American Academy of Nurse Practitioners Conference

September: American College of Nurse Practitioners in Women's Health Conference

Media advertising information:

¼ Page

2.25" X 13" or 4.75" x 6.125"

Cost: \$1,185 BW, \$1,430 COLOR (Includes 30 days online)

½ Page

4.75" X 13" or 9.75" x 6.25"

Cost: \$1,740 BW, \$2,145 COLOR (Includes 30 days online)

Online only: \$455 30 days

Advance for Physician Assistants

Advance is a peer-reviewed monthly news magazine that provides clinical and news information written for Physician Assistants nationwide. It provides comprehensive, up-to-the-minute clinical articles, practice and professional news, health coverage and profiles.

Circulation: 40,636

Frequency: 8x annually

Closing: Three Tuesday's before the month publication.

Bonus distribution issues:

January/February: Society of Emergency Medicine PAs

April: American College of Obstetrics & Gynecology

May/June: American Academy of Physician Assistants

October: Association of Family Practice PAs

Media advertising information:

4.5" x 3" Cost: \$1,819

4.5" x 7" Cost: \$3,731

Color: \$800 extra

Online: ONLY in conjunction with print ad.

NEWS-line

NEWS-Line currently publishes national print and on-line magazines designed to provide health care and information technology professionals with practical information in an easy-to-read, non-clinical format.

Circulation: 45,000

Frequency: Monthly

Closing: Second or fourth Thursday of each month preceding publication

Bonus distribution issues:

Winter Graduate Recruitment Special deadlines December 20th

New Year's Bonus deadlines December 31st

Media advertising information:

½ page

7" x 4 ½ "

Cost: \$1,885 (includes online posting)

No ¼ page size is available, Color: \$250 extra

Online only: \$455 30 days

Web Sites for Job Postings and E-Newsletters

(General posting and subspecialty PA posting opportunities listed below)

Web Sites

www.HEALTHeCAREERS.com

The PA Job Link brings together the collective voice of the PA profession. Founded in 1968, the [American Academy of Physician Assistants](#) (AAPA) has a federated structure of 57 chartered Chapters representing PAs in all 50 states, the District of Columbia, Guam, and the federal services; 21 Specialty Organizations representing PAs in virtually every medical and surgical specialty, and 11 Caucuses which represents Academy members who share a common concern, interest, or goal.

HEALTHeCAREERS is the web site for PA opportunities sponsored by the AAPA as well as the following Chapters and Specialty Organizations.

Chapters

Posting: Jobs may only be posted with a print ad.

Opt-in E-Newsletter: \$850 for one issue run of text only.

Monster.com: \$635.00 one position 60 day posting

CareerBuilder.com: \$653.00 one position 30 day posting

Yahoo hotjobs: \$515 one position 30 day posting

MLive: UMHS has a contract with MLive therefore all postings are automatically placed on the M-Live site.

E-Newsletters/E-mail Blasts

Advance for Physician Assistants E-Newsletter

Opt-in e-newsletter sent biweekly, offers opportunities to reach candidates with banner or text messages.

Cost: \$848 for one issue run, text only.

Weekly eNews for NEWS-Line

Published by NEWS-Line, this newsletter is sent to opt-in subscribers each week. Sponsorship includes facility name, web address and online announcement of available career opportunities.

Cost: \$1,285 per week for the Weekly eNews

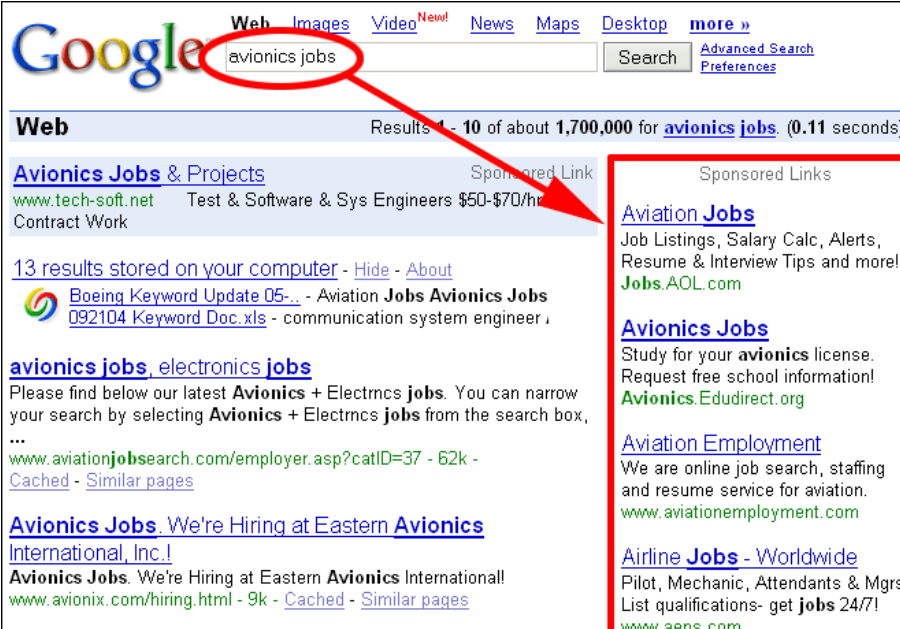

Alternative Web Strategies: Pay-Per-Click (Google, Adworks and Yahoo)

Pay-Per-Click

Pay-Per-Click, (PPC) Advertising begins with choosing a set of keywords relevant to the goals of the UMHS PA recruitment. In the example below, the keyword 'avionics jobs' is used to illustrate a sample keyword search. When a user enters this keyword, it will trigger the delivery of an ad which will appear in the area marked by the red box.

These keywords are bid upon at a pay-per-click (PPC) rate. This means is that for each click, UMHS will be charged a small fee. When an ad is displayed but not clicked on, no fees will be charged.

PPC Advertising offers strong geo-targeting capabilities that will allow JWT Inside to focus the UMHS media budget in the specified target market. This ensures that none of the media budget is spent in areas that UMHS is not targeting.

The image is a screenshot of a Google search results page for the keyword "avionics jobs". The search bar at the top contains the text "avionics jobs" and is circled in red. A red arrow points from the search bar to a red-bordered box on the right side of the page, which contains several sponsored links. The search results on the left include organic links such as "Avionics Jobs & Projects" from tech-soft.net, "Boeing Keyword Update 05-..." from a file named "092104 Keyword Doc.xls", and "Avionics Jobs. We're Hiring at Eastern Avionics International, Inc." from avionix.com. The sponsored links in the red box include "Aviation Jobs" from Jobs.AOL.com, "Avionics Jobs" from Avionics.Edudirect.org, "Aviation Employment" from aviationemployment.com, and "Airline Jobs - Worldwide" from aeps.com.

1. Keyword Research

JWT Inside will conduct thorough research to select the most appropriate keywords for your program. We strive to find a balance between the words people are searching for, qualified visitors, and keyword competitiveness. Using specialized tools and leveraging our existing relationships with online media, we research the number of monthly searches for pre-determined keywords as well as the cost per keyword. JWT Inside will also revisit the current keyword list and scrub it to accentuate the best performing keywords while removing poor performers. JWT Inside will also make recommendations on new keywords to help support any key hiring areas or job disciplines that are needed. As UMHS communicates its critical PA hiring needs and provides information on the priority between different job segments, JWT Inside will 'skew' the list to favor the job areas most needed by UMHS.

2. Keyword Selection

Selecting the keywords is the single most important part of PPC Advertising. If you choose the wrong words, your site will receive one of two things: no traffic or too much unqualified traffic. We will conduct a detailed needs analysis with UMHS and review research data to make the targeted keyword recommendation. JWT Inside will also update the selected keywords bi-monthly and actively manage the campaign to make sure the strongest performing keywords are selected.

3. Implementation

JWT Inside will work with Google AdWords and Yahoo Search Marketing. These are the largest search networks, and by focusing on these two networks we can concentrate the media for maximum effect and reduce diluting across multiple networks, as well as reduce project management costs associated with managing multiple networks.

4. Report

JWT Inside will provide a report outlining the program success. This will consist of basic reports outlining program statistics, optimizations done, and optimizations planned for the future, and one final report with a detailed analysis of the campaign as a whole.

Campaigns are quoted in advance, average monthly media charge for a Google AdWords campaign averages \$5,000. In addition, there is a set up fee and reporting fee.

College Recruiting: Physician Assistant Programs
