

For Employees covered under the AFSCME Local 1583 and UM Bargaining agreement
Season Days Not Working

For University Hospitals, **between December 15 and January 15**, there shall be **four (4) Season Days** which may be **designated on an individual basis**.

Each Season Day shall be the consecutive twenty-four (24) hour period starting with the employee's starting time.

Each **full-time employee**, other than an employee on layoff or on any leave of absence, **shall receive eight (8) hours pay** at his/her hourly rate plus shift or special schedule premium if applicable, **for each Season Day** for which the employee is not scheduled to work.

Each **part-time employee** normally scheduled to work eight (8) or more hours per calendar week, other than an employee on layoff or on any leave of absence, shall receive pay for each Season Day for which the employee is not scheduled to work, **determined by multiplying their standard hours per week divided by five.**

****Pro-rate each day by multiplying 8 times their fte. Example, .8 fte for a 32 hour per week employee, 8 times .8 = 6.4 SEA per day. If they normally work more than 6.4hrs a day, you have to supplement the rest with PTS or ETW.***

Season Days Worked

An employee who works on a Season Day will be paid for the time worked at the employee's hourly rate and shift premium, if applicable. In addition and for each Season Day the employee works, an equivalent amount of time, **not to exceed a total of thirty-two (32) hours** shall be added to the employee's PTO accrual.

After January 15th, if the employee has not taken all their 4 Season Days off then you will process a prior period adjustment on a day they worked between December 15th and January 15th and **change REG to SEW** for each Season Day they did not take off. By doing this the hours will be added into the PTO bank. There is no effect on pay with this process.

EXAMPLES:

40 hour a week employee works four 10's per week, did not take Season Days off:
