

Supplemental Table 1: Search Terms used in Article Database Searches

Database	Search Terms
PubMed	<p>spinal cord injury AND ((urologic examination OR renal ultrasound OR urinary ultrasound OR renal sonography OR urinary sonography OR renography OR creatinine OR blood urea nitrogen OR BUN OR renal nuclear scan OR cystoscopy OR "kidney ureter bladder" OR KUB OR urinalysis OR urine culture OR urine examination OR cystometrogram OR cystogram OR cystometry OR urodynamic OR urethral culture OR GFR) AND (renal failure OR kidney failure OR reflux nephropathy OR stones OR calculi OR bladder cancer OR UTI OR urinary tract infection OR hydronephrosis OR autonomic dysreflexia OR surveillance))</p> <p>In PubMed, terms are searched as both keywords and subject headings simultaneously. Results were limited to articles in English and studies that used human subjects.</p>
CINAHL	<p>(spinal cord injury OR (MH "Spinal cord injuries")) AND ((urologic examination OR renal ultrasound OR urinary ultrasound OR renal sonography OR urinary sonography OR renography OR creatinine OR (MH "Creatinine")OR blood urea nitrogen OR BUN OR (MH "Blood Urea Nitrogen") OR renal nuclear scan OR cystoscopy OR (MH "Cystoscopy") OR "kidney ureter bladder" OR KUB OR urinalysis OR (MH "Urinalysis") OR urine culture OR urine examination OR cystometrogram OR cystogram OR cystometry OR urodynamic OR (MH "Urodynamics") OR urethral culture OR GFR) AND (renal failure OR kidney failure OR (MH "Kidney Failure") OR reflux nephropathy OR stones OR calculi OR (MH "Kidney Calculi") OR (MH "Urinary Calculi") OR bladder cancer OR (MH "Bladder Neoplasms") OR UTI OR urinary tract infection OR (MH "Urinary Tract Infections") OR hydronephrosis OR (MH "Hydronephrosis") OR autonomic dysreflexia OR (MH "Autonomic Dysreflexia") OR surveillance))</p> <p>Terms with the designation <i>MH</i> are CINAHL subject headings. Other terms are keywords. Results were limited to peer-reviewed research articles in English.</p>
PsycINFO	<p>(spinal cord injury OR (spinal cord injuries*)) AND ((urologic examination OR renal ultrasound OR urinary ultrasound OR renal sonography OR urinary sonography OR renography OR creatinine OR blood urea nitrogen OR BUN OR renal nuclear scan OR cystoscopy OR "kidney ureter bladder" OR KUB OR urinalysis OR urine culture OR urine examination OR cystometrogram OR cystogram OR cystometry OR urodynamic OR urethral culture OR GFR) AND (renal failure OR kidney failure OR reflux nephropathy OR stones OR calculi OR bladder cancer OR UTI OR urinary tract infection OR hydronephrosis OR autonomic dysreflexia OR surveillance))</p> <p>Terms with an asterisk are PsycINFO subject headings. Other terms are keywords. Results were limited to articles with human subjects in English.</p>
Web of Science	<p>spinal cord injury AND ((urologic examination OR renal ultrasound OR urinary ultrasound OR renal sonography OR urinary sonography OR renography OR creatinine OR blood urea nitrogen OR BUN OR renal nuclear scan OR cystoscopy OR "kidney ureter bladder" OR KUB OR urinalysis OR urine culture OR urine examination OR cystometrogram OR cystogram OR cystometry OR urodynamic OR urethral culture OR GFR) AND (renal failure OR kidney failure OR reflux nephropathy OR stones OR calculi OR bladder cancer OR UTI OR urinary tract infection OR hydronephrosis OR autonomic dysreflexia OR surveillance))</p> <p>Terms searched as keywords. Results were limited to articles in English.</p>
