

Table 1: Diagnosis categories and procedure codes

Diagnosis	ICD-9 code
Neurogenic Bladder: Neurogenic bladder NOS Cauda equina syndrome with neurogenic bladder	596.54 344.61
Interstitial cystitis: Interstitial cystitis	595.1
Urinary retention: Retention of urine, unspecified Atony of bladder Incomplete bladder emptying Other specified retention of urine	788.20 596.4 788.21 788.29
Wet OAB: Unspecified urinary incontinence Urge incontinence Mixed incontinence	788.30 788.31 788.33
Dry OAB: Urgency of urination Urinary frequency, frequency of micturition Hypertonicity of Bladder Detrusor instability Nocturia	788.63 788.41 596.51 596.59 788.43
Other: Incontinence without sensory awareness Stress incontinence, female Intrinsic sphincter deficiency Female genital symptoms NOS Other specified disorders of bladder Other abnormality of urination, Other Stress incontinence male Other urinary incontinence Slowing urinary stream Chronic cystitis NEC Cystitis NOS Urinary System Symptom NEC	788.34 625.6 599.82 625.9 596.8 788.69 788.32 788.39 788.62 595.2 595.9 788.9
Procedure	CPT Code
percutaneous test stimulation test stimulation with incision (2-stage test) Battery placement Lead removal Battery removal	64561 64581 64590 64585 64595
NOS= not otherwise specified, NEC= not elsewhere classified
