Instructions for Windows Vista Users

1. Open Internet Explorer to the address: https:\citrix.med.umich.edu

2. If you do not have ActiveX control (Net6 Helper Package) installed you will see the following screen (Figure 1). You will need to Click OK on the message box and immediately click on the yellow banner at the top that states, “This website wants to install the following add-on Citrix Helper Package” Then Select Install ActiveX Control (Figure 2) (If the yellow banner disappeared before you could click on it, click the Back button and the process will start over)

If you do not see the yellow banner, you will need to add citrix.med.umich.edu as a trusted site. Go to Appendix A to learn how to add a trusted site.
3. You may get the Windows needs your permission message.
   a. Select Continue (Figure 3)
   b. The Citrix Helper Package will display
   c. Select Install (Figure 4)
4. If you receive this message, you will need to add citrix.med.umich.edu as a trusted site. Go to Appendix A to learn how to add a trusted site.
5. After the installation completes, you will see a Pre-Authentication Scan as shown in Figure 5. Then you will see the Level-I Sign-in screen. Enter Your UMHS Username, followed by your **LEVEL-1 (Kerberos)** password. If your login fails, you will receive the error, ‘Invalid User Name or Password’.

![Figure 5](image-url)
6. When your login is successful, you will be directed to a Level-2 Sign-in screen as shown below. (Figure 6) Enter Your UMHS Username, followed by your LEVEL-2 password. If your login fails, you will receive: ‘ERROR: The supplied credentials were invalid. Please try again or contact your system administrator for help.’
7. After your login is successful, you will be directed to a screen similar to the one below. If your Pop-up blocker prompts you, you will need to select Always allow Pop-ups from this site (*.med.umich.edu). Steps 1, 2 and 3 shown in Figure 7.
8. If you do NOT have Java(JRE) installed, you will see the following messages.
   An Internet Explorer message stating, 'The page you are viewing uses Java' Select OK and
   you will see another message stating ‘Your browser must have Java enabled to use the
   Client for Java’ (Figure 8)
   You will need to install the Java JRE by Clicking on the University of Michigan Logo in the
   upper left and follow the instructions. (Installation instructions are in Appendix B)

Figure 8
9. After your login is successful, and the OMP-Desktop begins to launch, you may see the following message. Make sure the box is checked, “Always trust content from this Publisher” and Select Run. Figure 9

![Figure 9]

10. After you click the Security Warning. The Citrix Desktop will continue to launch and you will see these windows pop up before the application completely loads. (Figure 10) Do not close these windows until you are completely finished with your work.

![Figure 10]
11. The OMP Citrix Desktop will come up in a new window and you can begin working in Careweb and UM-Carelink. (Figure 11)

12. When you have finished your work and want to end your session, click on the yellow X in the upper left.

13. Close the web browser.
Appendix

Appendix A

Appendix B

Installing the Java Runtime Environment (JRE)

If you see the following message, ‘Your browser must have Java enabled to use the Client for Java’. You will need to close the pop-up message and install the Java JRE by clicking on the University of Michigan Logo in the upper left and follow the instructions. The University of Michigan Logo is only active when the Level-2 Login Screen is displayed. (Figure B1)
Installing the JRE

- To install the JDK JRE (jre-1.5.0_12-windows-i586-p.exe) Click HERE.
- Select Run at the 'File Download'
- Select Run at the 'Do you want to run or save this file'
- Select Run at the 'Do you want to run this software'
- Select Typical setup and click 'Accept at the 'License Agreement'
- Click Finish
- Close this browser window and continue

Select “Run”

File Download - Security Warning

Do you want to run or save this file?

- Name: jre-1.5.0_12-windows-i586-p.exe
- Type: Application, 15.8 MB
- From: citrix.med.umich.edu

Run  Save  Cancel

While files from the Internet can be useful, this file type can potentially harm your computer. If you do not trust the source, do not run or save this software. What’s the risk?
Select “Run”

Internet Explorer  Security Warning

Do you want to run this software?

Name: J2SE Runtime Environment 5.0 Update 12
Publisher: Sun Microsystems, Inc.

More options Run Don’t Run
