WASHTENAW COUNTY
ADULT FOSTER CARE HOMES
SERVING THE ELDERLY

2016

HOUSING BUREAU FOR SENIORS
2401 PLYMOUTH ROAD, SUITE C
ANN ARBOR, MI  48105

Call 734-998-9346 for more information.

http://www.med.umich.edu/seniors/

All information is provided by the senior communities. Their rates and services may change without giving notice to the Housing Bureau for Seniors.

The Housing Bureau for Seniors is a community supported program of the University of Michigan Health System
What are adult foster care homes? What services do they offer?

Adult Foster Care Homes (AFC’s) provide a supportive 24-hour residential environment for adults who are unable to maintain themselves independently, but do not require continuous nursing care. Personal care services for AFC residents include assistance with bathing, grooming, dressing, toileting, ambulation and eating. Caregivers assist with administering medications as prescribed by a physician. Generally, the monthly cost includes room and board, laundry, assistance/supervision as needed, and transportation to medical appointments, unless otherwise noted. Monthly costs vary from home to home.

Are AFC’s regulated in any way?

AFC homes are privately owned and operated. They are licensed and regulated by the Michigan Department of Human Services. State licensure requires minimal health and safety standards and the state can take enforcement action for failure to maintain these levels of care. After a license is issued, inspections are made every two years to ensure standards continue to be met.

AFC Complaints: Specific information on violations, complaints, and recommendations are at www.dleg.state.mi.us/brs_afc/sr_afc.asp

A complaint can be submitted online by going to the DHS website at www.michigan.gov/bcal complaints. You may also file a complaint by calling toll free 1-866-856-0126.

What information will I be asked?

The home operator requires information about care needs to determine how they can meet personal care needs and at what cost. Be prepared to discuss needs related to bathing, dressing, grooming, toileting, as well as about medical conditions, medication requirements and special diet requirements.

AFC licensing requires that a home operator obtain certain information (next of kin, doctor, hospital preference, medical, etc.) in writing at the time of admission. At the time of admission a written plan of care is required with the understanding that periodic updates are needed. You should be asked to participate in the development of this plan.

What information can I ask of a home?

Ask questions that provide you with information about:

- The care provided and any terms and conditions for the delivery of that care.
- The staffing, meals (menus may be available), home’s general routine, how assistance is provided, expectations of residents, visiting hours, any restrictions, and how a home handles problems between residents, etc.
how a room can be furnished with personal items and what you may bring from home
transportation available for appointments outside of the home (doctors, etc.), or is family expected to provide this
any planned activities for the residents (daily or on occasion)

Take some time to talk with the current residents, if possible. You may want to visit more than once, perhaps, at different times of day. Be sure to understand monthly charges, what is covered, when fees are due, and whether or not you will receive a refund if you leave before the month is up. Some homes will require a written contract.

**How is adult foster care financed?**

1. You pay out of pocket.
2. Government Payment Options

**Federal Benefits for Veterans, Dependents, and Spouses**

Veterans who have received an honorable discharge may be eligible for a broad range of programs and services when they meet specific guidelines and have the proper documentation. Surviving spouses and dependents may also be eligible. Examples of programs and services that may be of particular interest to older adults are:

- VA Home and Community-Based Care Benefits (e.g. hospice care, respite care, and home health care)
- Burial and Memorial Benefits
- Long-Term Care Facilities in Michigan
- VA Pensions

Of special interest may be the disability pension. This is for veterans, their spouses, or surviving spouses who are permanently and totally disabled or 65 plus needing financial support for personal care assistance. This payment is applied to home care, an assisted living residence, or a nursing home. To determine eligibility and to learn what documentation is needed to qualify for benefits contact: Washtenaw County Department of Veteran Affairs, 2155 Hogback in Ann Arbor at (734) 973-4540 or (734) 971-2195.

**Community Support and Treatment Services**

If you have a developmental disability or a mental illness and are a consumer of Community Support and Treatment Services (CSTS) contact your case manager for housing assistance. If you are not a CSTS customer, call ACCESS at 734-544-3050 or 1-800-440-7548 to ask about placement and services. For those who are not CSTS customers, they will have to have a diagnosis of a severe mental illness and have little or no means for health care insurance coverage.
As you move through the selection process use the checklist below to compare the features of places you visit. This checklist can help you keep track of what you have seen and remind you of some important questions to ask.

**Instructions**

Below there are spaces for three AFC homes. Consider each an option. Circle each option (1, 2 or 3) when you can answer YES to the question in each category. For example, with the question “Do you like the location?” circle 1 if you like the location and can say YES for your Option 1. Make notes as you wish.

Updated: March 2016
Located in a residential setting on one acre of land that is heavily wooded and has abundant wildlife. This is a spacious home with 2 living rooms. All rooms are private rooms with shared bathrooms. Two bathrooms are shared by five of the residents, and one room has a private bath. The monthly base rate ranges from $2,000 to $5,250 and is based on level of care needed as determined by an RN evaluation.

Rates include assistance with personal care, meals, laundry, housekeeping and medication management, incontinence management and weekly wellness evaluation by RN. Staff is 75% CNA with a 3:1 patient to staff ratio during the day. Additional costs for special needs such as ostomy care, tube feedings, oxygen and complicated special diets.

- Licensed for 6 people (all ages)
- Accepts both men and women
- Handicapped accessible
- Non-smoking, and no pets allowed
- Provides respite care
- Provides care for people with chronic conditions
- Provides care for people with memory disorders, with mental health problems (mild dementia only), or mentally challenged
