This is the scale we use to rate your pain.

- Do you have any pain?**
- Point to the location of your pain.**
- How would you rate your pain?**
- Is your pain level acceptable?**
- Do you want something for the pain?**
- Did the pain medication help you?**

Everything looks fine.

Do you understand what I am asking/telling you?

You are going for a test/X-Ray.

You need to stay in bed.

Call for help if you need to get up.

You can't have anything to eat or drink after midnight.

Is there anything else I can do for you?
