

Peer Mentoring

C.S. Mott Children's Hospital Craniofacial Anomalies Clinic has partnered with the Office of Patient Experience to offer a Peer Mentoring Program.

What is a peer mentor?

A peer mentor is a patient who has been on a similar health journey as the one you are facing. Each peer mentor is available to share their experiences, provide information, answer your questions and provide emotional support.

How are they trained?

Each peer mentor has attended formal training and receives ongoing staff support and follow-up.

How does it work?

We will give you contact information for one of our mentors. The two of you will determine the amount of contact you have, the type of contact, and the length of your relationship.

How can I be matched with a peer mentor?

If you feel you may benefit from being connected to one of our mentors contact our social worker Laura Hatch LMSW:

Phone Number: (734) 232-6943

Email: lhatch@med.umich.edu.

We look forward to connecting you with a mentor!
