

TheraSkin

What is TheraSkin?

TheraSkin replaces damaged skin and can assist in healing most chronic wounds. A chronic wound is one that persists for a long time. TheraSkin is made from real human skin and is composed of living cells. It provides a supply of growth factors and contains a protein to jumpstart healing in a non-healing chronic wound.

Who can use TheraSkin?

People with chronic wounds that have exposed muscle, bone, tendon and
joint capsule. Examples are diabetic foot ulcers, venous leg ulcers, arterial
ulcers, dehisced surgical wounds, pressure sores and wounds.

Who cannot use TheraSkin?

People with wounds that may have been infected.
