

Information About “APPS”

INFORMATION GUIDE

App is an abbreviation for *application*. An **app** is a piece of software. It can run on the Internet, on your computer, or on your phone or other electronic device.

The purpose of this guide is to help patients and families find sources of information and support. This list is not meant to be comprehensive, but rather to provide starting points for information seeking. The resources may be obtained at the Mardigian Wellness Resource Center located off the Atrium on Floor 2 of the Cardiovascular Center. Visit our website at <http://www.umcvc.org/mardigian-wellness-resource-center> and online Information guides at <http://infoguides.med.umich.edu/home>

Cardiovascular Health

Blood Pressure Companion

- Cost: \$0.99
- Features: Blood pressure log. You enter your systolic and diastolic pressures as well as your pulse and weight. The app will calculate your average arterial pressure and pulse pressure and generate graphs showing fluctuations in these values over time. Can export data, reports, and spreadsheets by email.
- For: iPhone and iPad

CardioSmart Heart Explorer by American College of Cardiology

- Cost: Free
- Features: Provides 3d animation of common heart problems and treatment.
- For: iPhone, iPad and Android

Information About “APPS”

INFORMATION GUIDE
