**Nursing Information Technology Teams (NITT)**

# Nursing Informatics (NI) | Nursing Information Services (NIS)
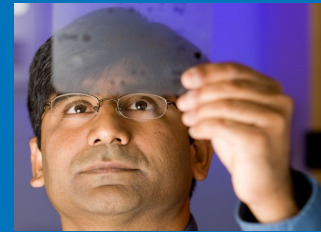

MICHIGAN MEDICINE

OUR

## MISSION

We integrate technology to enhance clinical workflow and patient care.

OUR

## VISION

Technology increases knowledge. Knowledge improves patient outcomes.

OUR

## VALUES

### CARING
We will evaluate and redefine processes collaboratively to enhance patient and family centered care effectively and safely.

### INNOVATION
We will leverage a model of interoperative technology to advance patient care and improve clinical workflows.

### INCLUSION
We will ensure an environment where all are respected as individuals with a sense of belonging, where they achieve goals and thrive professionally.

### INTEGRITY
We will adhere to the goal of improving health, following ethical standards, being truthful, and ensuring transparency in all domains of practice.

### TEAMWORK
We will hold an organizational partnership with all stakeholders to evaluate and refine clinical process to improve community health outcomes.
