

LOCAL DOULA SERVICES

At Von Voigtlander Women's Hospital, we offer the [Dial-a-Doula Program](#), which connects those giving birth with trained volunteer doulas. Ideally, families who would like the support of a doula arrange for these services early on in the pregnancy so you all can work together on your birth plan. However, if you have not made these arrangements and would still like a doula during labor and delivery, our volunteer doulas are here to help.

If you are interested in having a doula for your labor and delivery, we recommend that you start your search by reviewing the list below. This list of local doula resources has been compiled by our Dial-a-Doula team after an extensive internet search. Please note that Dial-a-Doula and Von Voigtlander Women's Hospital are not responsible for any of these referrals and have not evaluated these services. We encourage you to reach out to the organizations as you desire to determine if they are a good match for your needs.
